

SEPHRA[®] Floss Boss 3024 EX Candy Floss Machine

The Floss Boss is a full sized, high quality machine and the most cost effective, dependable candy floss machine in the industry. Solid state heat control, a high capacity spinner head and cool running operation makes it fast and easy to produce candy floss.

It is recommended that this and all other floss machines be operated with a floss bubble or dome to protect from flying sugar crystals, which happens occasionally due to overloading the spinner head.

Sephra also offer a comprehensive range of candy floss supplies and accessories that will compliment any cotton candy business.

"IDEAL FOR KIOSKS, CARNIVALS AND MARKETS"

SEPHRA[®] Optional Accessories

Candy Floss Cart - 3149

The candy floss cart is an accessory that will add a special edge to your business. The candy floss cart stands 98cm tall and is specifically made for the Floss Boss Candy Floss Machine.

Candy Floss Domes - 3938 - 3943

It is recommended that all candy floss machines be operated with a half or full dome floss bubble to protect yourself and customers from flying sugar crystals. Sugar crystals form when the spinner gets overloaded, and then are ejected at high speed from the machine.

Flossine Colouring

Available in Strawberry Pink, Cherry Red, Bubble Gum Blue and Vanilla Pink, Flossine colouring adds a professional touch to your candy floss. An array of different coloured candy balls will attract the crowds.

Candy Floss Sticks

Whether they're wooden or paper candy floss sticks, you will need sticks to spin your cotton candy on. Our candy floss sticks have been specifically sourced with quality and price in mind.
