Sephra CF18HR Legend

Sephra's new entry level commercial 19" (48.5cm) chocolate fountain (The CF18HR Legend) is suitable for small events of up to 50 guests, kiosk/counter top use or buffet restaurants.

The Legend represents exceptional value for money and is the most cost effective commercial chocolate fountain available in the market.

The Legend is the most affordable and portable model. Its compact size and low minimum chocolate requirements make it perfect for small events or as an accent to larger chocolate fountains.

Optional Accessories

Sephra Illuminated Surrounds

Our illuminated surrounds, for example, are made from heavy-duty food grade polypropylene. Unlike cheaper alternatives this material will not crack easily on impact.

As well as this, Polypropylene is welded instead of glued - this gives your illuminated surround more strength and flexibility.

Perhaps most importantly, this is a food grade material unlike the most popular alternative, Perspex. It is simple variations like these that set Sephra products apart from our competitors.

Our surrounds all use a colour changing light emitting diode (LED) system. These can be remote controlled giving you the ability to change colour shade, speed and pattern depending on the event.

Sephra Wind/Sneeze Guards

Our wind/sneeze guards are made from clear acrylic, allowing the same high impact image of curtaining chocolate, whilst providing 360 degrees of protection from wind, airborne contamination and insects. Whether you are looking to keep contaminants (such as dust, insects and fingers) from the chocolate, or to protect against wind during outdoor events, these accessories provide the perfect solution.

All Sephra wind/sneeze guards are fitted with hinges and a clear acrylic removable door; this allows access to use your fountain easily and effectively.

SPARE PARTS - A FULL LIST OF SPARE PARTS ARE AVAILABLE ON REQUEST. WE STOCK ALL COMPONENTS FOR OUR FOUNTAIN RANGE.
