

SEPHRA® Sephra CF44R The Sephra

The largest, most dramatic fountain is The Sephra. It reaches a height of 44 inches and is constructed with an additional tier.

If your customers have large events, The Sephra is a must for your business. It stands 10 inches taller than the Montezuma. The Sephra also has a capacity to hold up to 10Kg of chocolate, giving each event a real touch of elegance!

Perfect for large events, weddings, and large banquets.

Weight: Base: 25 Kg - Tier Set: 20 Kg
Dimensional Shipping Weight: 57 Kg
External Box 1: 55 x 55 x 49 cm
External Box 2: 47 x 92 x 31 cm

SEPHRA®

Optional Accessories

Sephra Illuminated Surrounds

Our illuminated surrounds, for example, are made from heavy-duty food grade polypropylene. Unlike cheaper alternatives this material will not crack easily on impact.

As well as this, Polypropylene is welded instead of glued - this gives your illuminated surround more strength and flexibility.

Perhaps most importantly, this is a food grade material unlike the most popular alternative, Perspex. It is simple variations like these that set Sephra products apart from our competitors.

Our surrounds all use a colour changing light emitting diode (LED) system. These can be remote controlled giving you the ability to change colour shade, speed and pattern depending on the event.

Sephra Wind/Sneeze Guards

Our wind/sneeze guards are made from clear acrylic, allowing the same high impact image of curtaining chocolate, whilst providing 360 degrees of protection from wind, airborne contamination and insects. Whether you are looking to keep contaminants (such as dust, insects and fingers) from the chocolate, or to protect against wind during outdoor events, these accessories provide the perfect solution.

All Sephra wind/sneeze guards are fitted with hinges and a clear acrylic removable door; this allows access to use your fountain easily and effectively.

SPARE PARTS - A FULL LIST OF SPARE PARTS ARE AVAILABLE ON REQUEST. WE STOCK ALL COMPONENTS FOR OUR FOUNTAIN RANGE.
